

# JOINT LAND USE STUDY Critical Phase

Throughout an eight county area, the Joint Land Use Study (JLUS) has documented areas of conflict between the Air Force, local community growth, and other development. Three meetings will be held on April 28th, 29th, and 30th to present proposed core conflict issues and strategies intended to resolve existing and future conflicts. All are highly encouraged to attend, to learn more about the project and provide input.

The JLUS is a collaborative planning effort including the military, local communities, and other stakeholders. This project focuses on Minot Air Force Base and related facilities and operations in all eight counties where the Air Force has a presence. The end goal is to improve compatibility of existing and future development in areas near military facilities. Snacks and refreshments will be provided. The Minot Air Force Base Joint Land Use Study (JLUS) is a regional project sponsored by the Souris Basin Planning Council and funded by the US Department of Defense, Office of Economic Adjustment.
