

Your Community & MINOT AIR FORCE BASE

Record of Meeting

Location: Minot Public Library

Client: Souris Basin Planning Council

Date: August 15, 2018

Subject: Final Stakeholder Meeting

Introductions

- All attendees introduced themselves. A separate list of attendees and their contact information is available upon request.

Recap of Meeting Discussion

- Who is putting the public outreach materials? ND One Call/811 or the MAFB? In regards to the launch facility easement, it is misleading who to contact.
 - MAFB – The appropriate contact is Public Affairs email and phone
 - The materials could also note who is sponsoring it (MAFB)
- The following ideas for getting the outreach material out were shared:
 - Post/place flyers at local Cenex Stations
 - Leverage existing social media
 - Have Petroleum Council disseminate information to oil and gas companies
 - Full page “add” in electric co-op magazines
 - Reach out to contractors through the Builders Associations
 - Reach out specifically to utility contractors through electric coops
 - Farm Service Agency (USDA) Office: Place an official request for FSA to send to farmers
- Future comprehensive training opportunities were discussed. The concept of a more focused training was brought up potentially for townships
- Other activities focused specifically on townships were also discussed, such as more holistic planning and zoning training
- The idea of pursuing a grant through the Department of Defense Office of Economic Adjustment was discussed to fund filing military facility easement disclosures
